

Sharing Space is Good Stewardship
A call to pastors on behalf of HIS children

Dear Pastor,

Your church can rescue HIS children just by opening your doors and welcoming them in!
What space do you have that is empty Monday through Friday?

Many Sunday School classrooms, fellowship halls, basements, even the sanctuary itself, is sitting empty when it could be used to provide school for Christian children who can't afford it.

Christian education can no longer be only for those who can afford it.
They need to have a place where they can go that will protect them from the evil agenda pervading the American schools from California to Iowa.

It's no longer okay for church space to sit empty!

The first question I have repeatedly encountered is, "What about insurance and liability?"

It is a cost for churches. But it is not that much.
If you step out in faith, expect God to provide!

This is a mission to save HIS children --
Right here!
Right now!

Thank you for helping!

YOU and your church can take a stand and save HIS children, just by opening your doors to them.

With deep gratitude for reading and praying for HIS children,

Sheila Schuller Coleman, Ed.D.
